Entered record of visitation written by Patti VanWagoner and E-mailed to me. Duration is estimated.

(Harris, Linda 22Oct01)

19Oct01 60 minutes Final Client Supervised Visit Gallegos, Barbara

Policies:

I went w/ Patti VanWagoner to the J.E.D.I. office downtown 352 S. Denver (450 e.) to meet and help supervise Lisa Bierly & children, Jordan and Leigh, another older brother was there w/ Lisa when we arrived. Jordan went w/ him to another room to play on the computer. Mom visited w/ Leigh, gave her hugs. Leigh kept asking for something to drink, Lisa told Patti, Leigh should be checked for possible diabetes symptoms. The boys came out and sat with mom, she had new shoes for Jordan, mom kept asking Jordan how his Glucose was, he would answer, "ok" the older brother was being weird, saying weird things in a low voice, I didn't understand what he said, mom kept telling him to behave. Lisa went w/ Leigh into a smaller room to play a game Patti brought, I wasn't sure if this visit needed to be closely supervised so I went into the room w/ Mom and Leigh, Mom got quiet, I don't think she wanted me in the same room, she got up and left the room, Patti had to follow mom w/ Leigh when they went to the restroom. Jordan and Leigh were fine when the visit was over, Leigh was saying she wanted Mommy when we were leaving the visit, Jordan was quiet on the ride back. (Gallegos, Barbara 31Oct01)

25Oct01 11:45 160 minutes Final Client Supervised Visit Chapoose,

Vicky

Policies:

Caseworker wanted me to meet FM at Jordan's medical appt at Jordan Valley at Nighttime Peds for 11:45 appt.

ARRived at unit and found FF w/Jordan. Jordan's level was checked and he is currently 7.6 - doing very well.

Hospital staff was telling Jordan how proud they were of his excellent work and to keep it going. FM did provide lunch for Jordan. FF did fill out p/w for Jordan then the Dr arrived and went over Jordan's medical history w/a

minor physical check. Jordan was in a good mood and he was very talkative. Stated FB- and himself were going to be ninjas for Halloween. FF wanted to know about the Halloween treats that Jordan was going to get and the Dr told him to regulate everything and the candy could be added to his snacks but be careful of the extras. Jordan was hoping to get out of school but he had to go back. FF was going to take Jordan back to school when we were leaving. TC to casework and supervisor on Jordan's level. (Chapoose, Vicky 26Oct01)

26Oct01 13:00 160 minutes Final Client Supervised Visit Chapoose,

Vicky
