

### **Malfeasance in office**

Council members Brian Pitts, Gordon Haight, Jay Bowcott, Margaret Grochocki, may have violated the trust of the citizenry by not responding many reacquiring problems regarding city management at West Jordan:

Management has been over budget every year for the past four years, to exceeded \$6 million dollars over budget.

Minor infraction may get one employee reprimanded or fired, where another employee may break the law and be ignored, even after evidence may have been brought forth.

Council seem continually not respond regarding management not adhering to the bidding laws, and many other problems with West Jordan Management, only some of which have been mentioned.

Many other management problems I believe, would come forth through an investigation.
